Magnolia Hotel
1100 Texas Ave
Houston, TX 77002

The Neurology Update Symposium provides an evidence-based review on recent advances in the diagnosis and treatment of common neurological disorders. Topics include acute stroke, outpatient stroke, multiple sclerosis and other demyelinating diseases, status epilepticus, community deep brain stimulation programs, movement disorders, neuromuscular disorders and neuroethics. We encourage speakers to focus on clinically meaningful information and to use a case based approach.
